

# IRRIGATION INSTALLATION TRAINING

Learn from industry pros with a hands-on irrigation system installation from beginning to end.

THIS IS ONE OF OUR MOST POPULAR IN-PERSON TRAINING EVENTS THAT WILL BENEFIT YOU AND YOUR TEAM WITH INSTANT KNOWLEDGE NEEDED TO SUCCESSFULLY INSTALL A 7 ZONE IRRIGATION SYSTEM.

## This training includes:

- Design and layout on paper and in the field
- Sprinkler selection and installation
- Drip irrigation design and installation techniques
- Piping and installation
- Valve installation and selection
- Flow sensor installation and strategy
- Backflow requirements
- Job flow discussions
- Business discussions
- Internet based controller installation & scheduling
- Diagnostic tools and more!
